Dashboard for Delivery Service  
in ecommerce sector

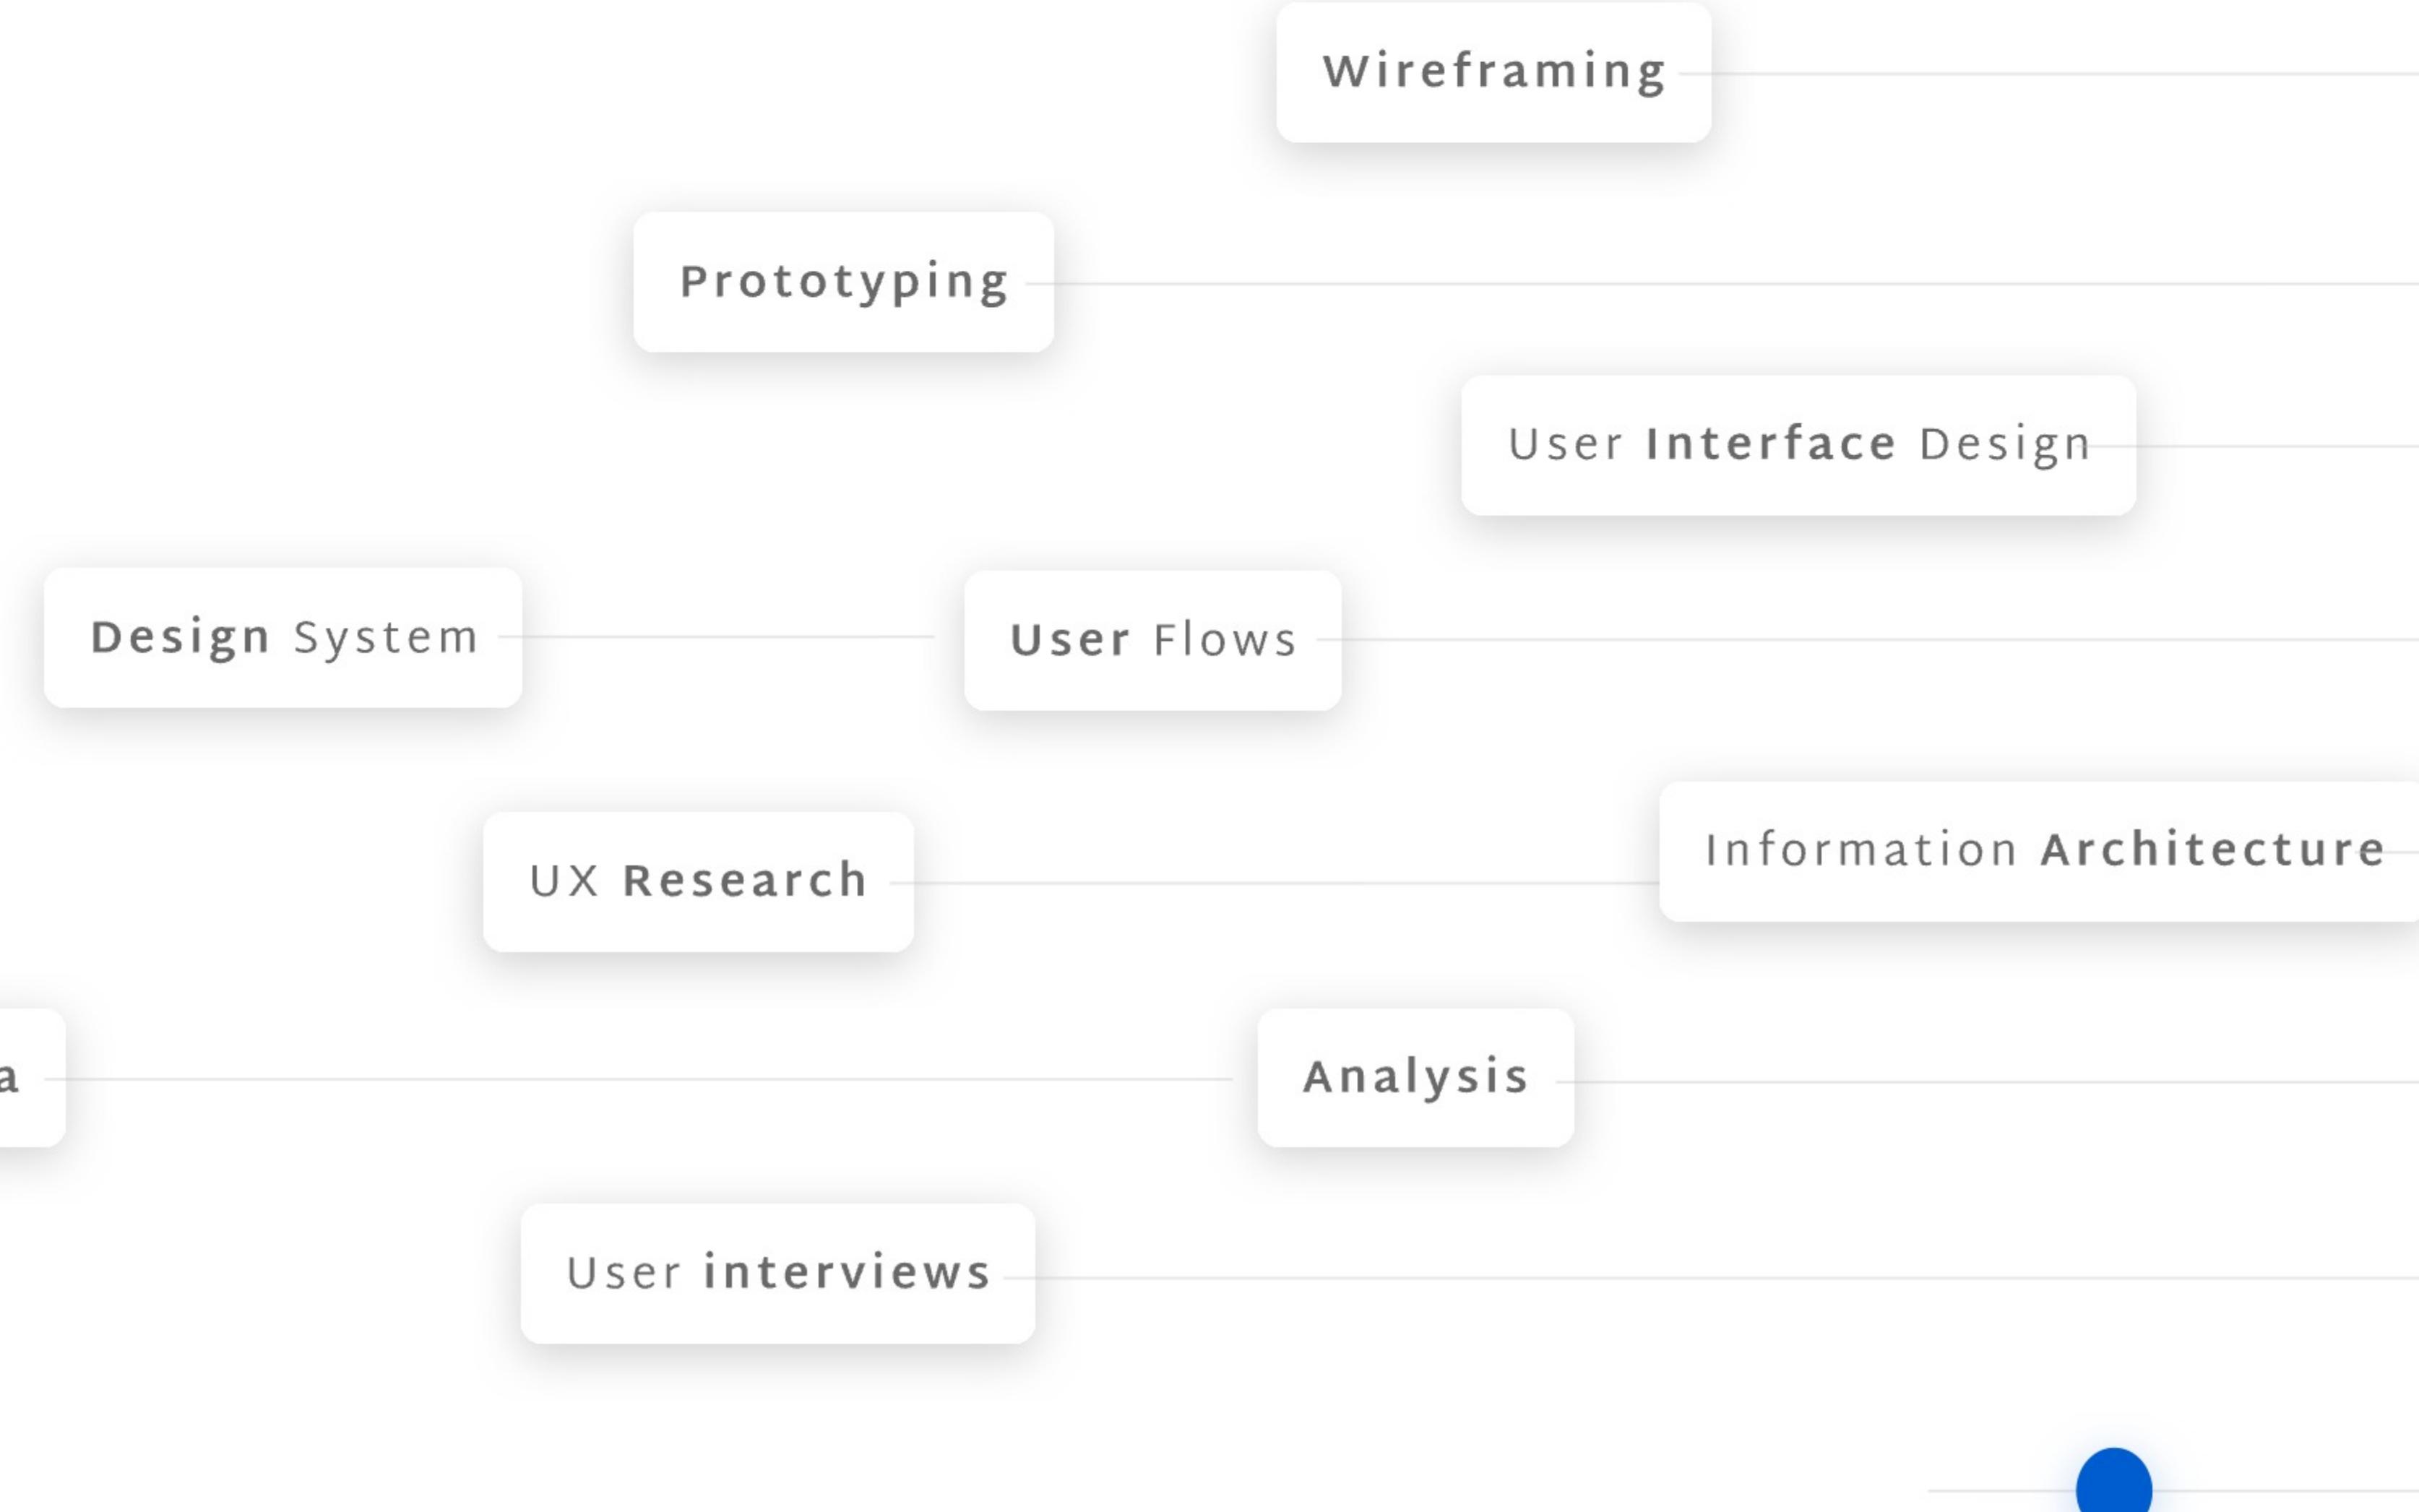

## ■ OVERVIEW

# About the project

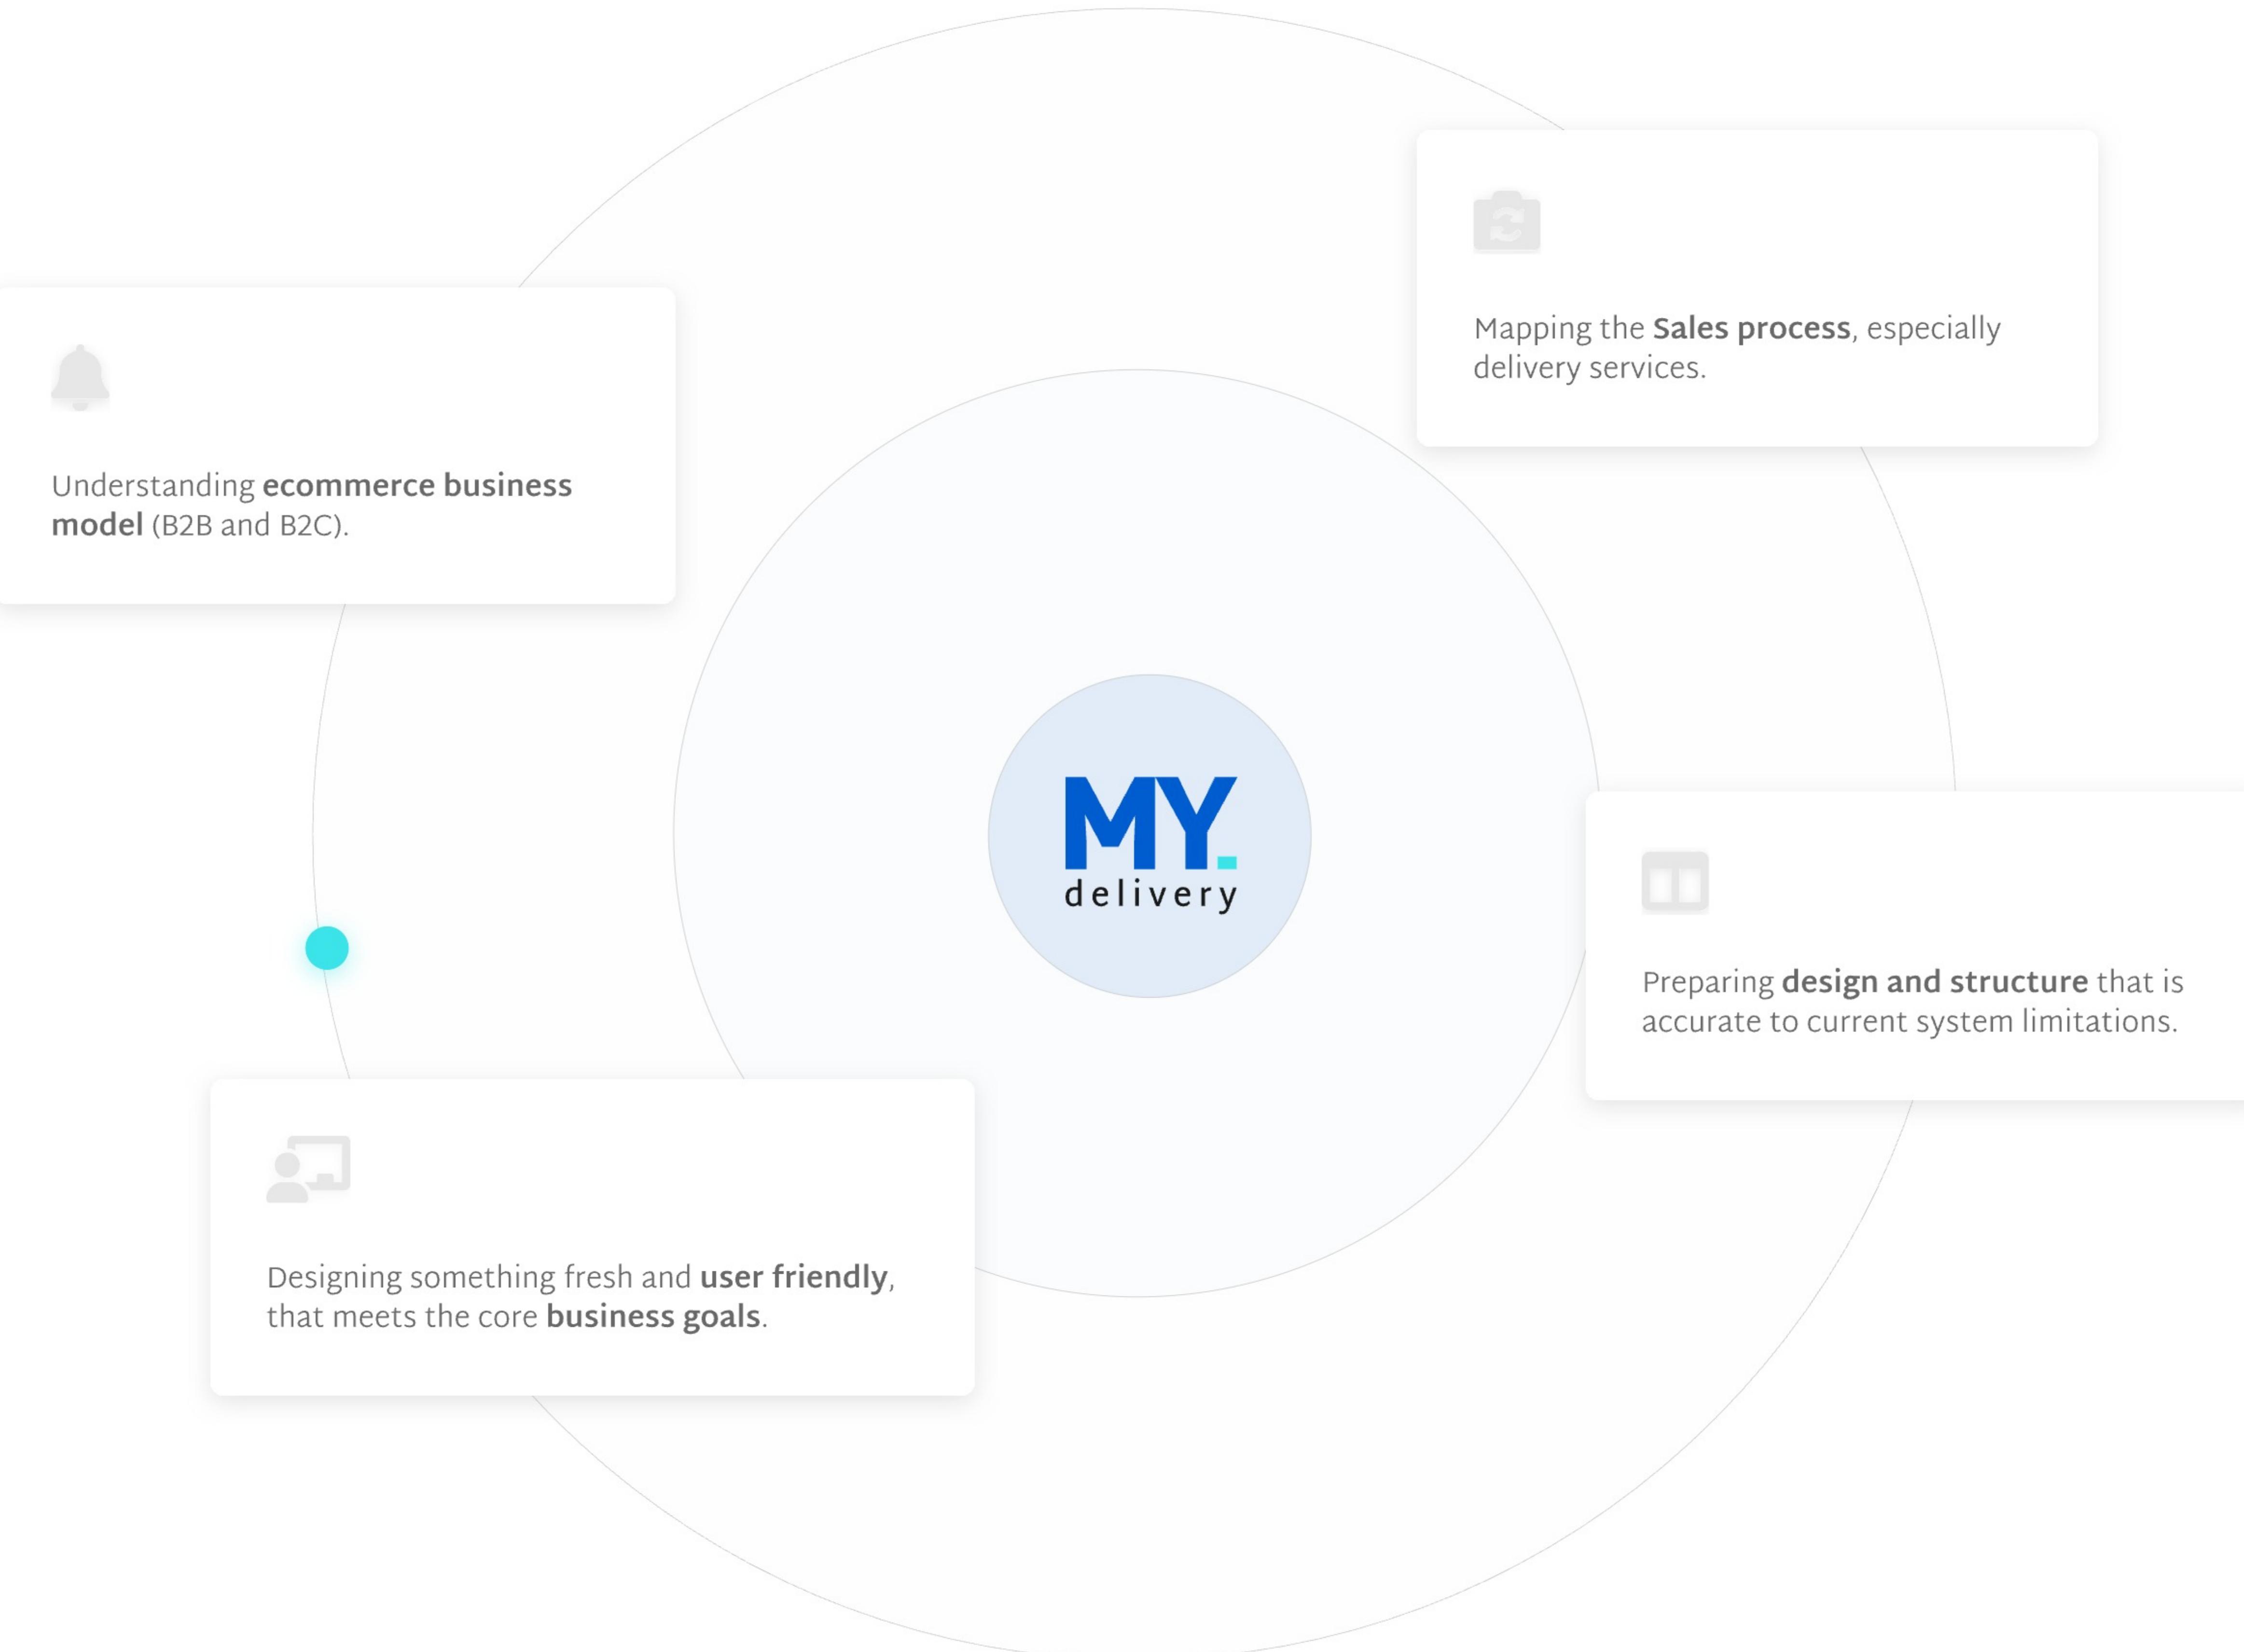

This web application was designed for ecommerce platform. It can be adopted and used in almost every ecommerce. It helps Sellers to manage orders and provide delivery services.

Most of ecommerce platforms try to convince users that they should sell the products there. That's why they enrolling their own delivery services.

## ■ DISCOVER

### Research & Analysis

I began with a set of interview and survey questions with potential users. In qualitative research, I have done 4 interviews for each profile (big and small merchandiser) to know more about their insights, struggles and good experiences when it comes to managing orders in ecommerce.

I have also met with ecommerce platform workers. I want to talk with representatives from all teams (Call Center, Sales Department, Legal Department, Marketing, SEO and Design Team). It allows me to find sellers' goals and business objectives.

I conducted market and competitor research to empathize with them, define the problems and figure out solutions.

## ■ DEFINE

# Problem statement & possible solutions

The delivery process is usually too complicated, long and non-intuitive.

Easy package preparation (convenient website form, with different sending options).

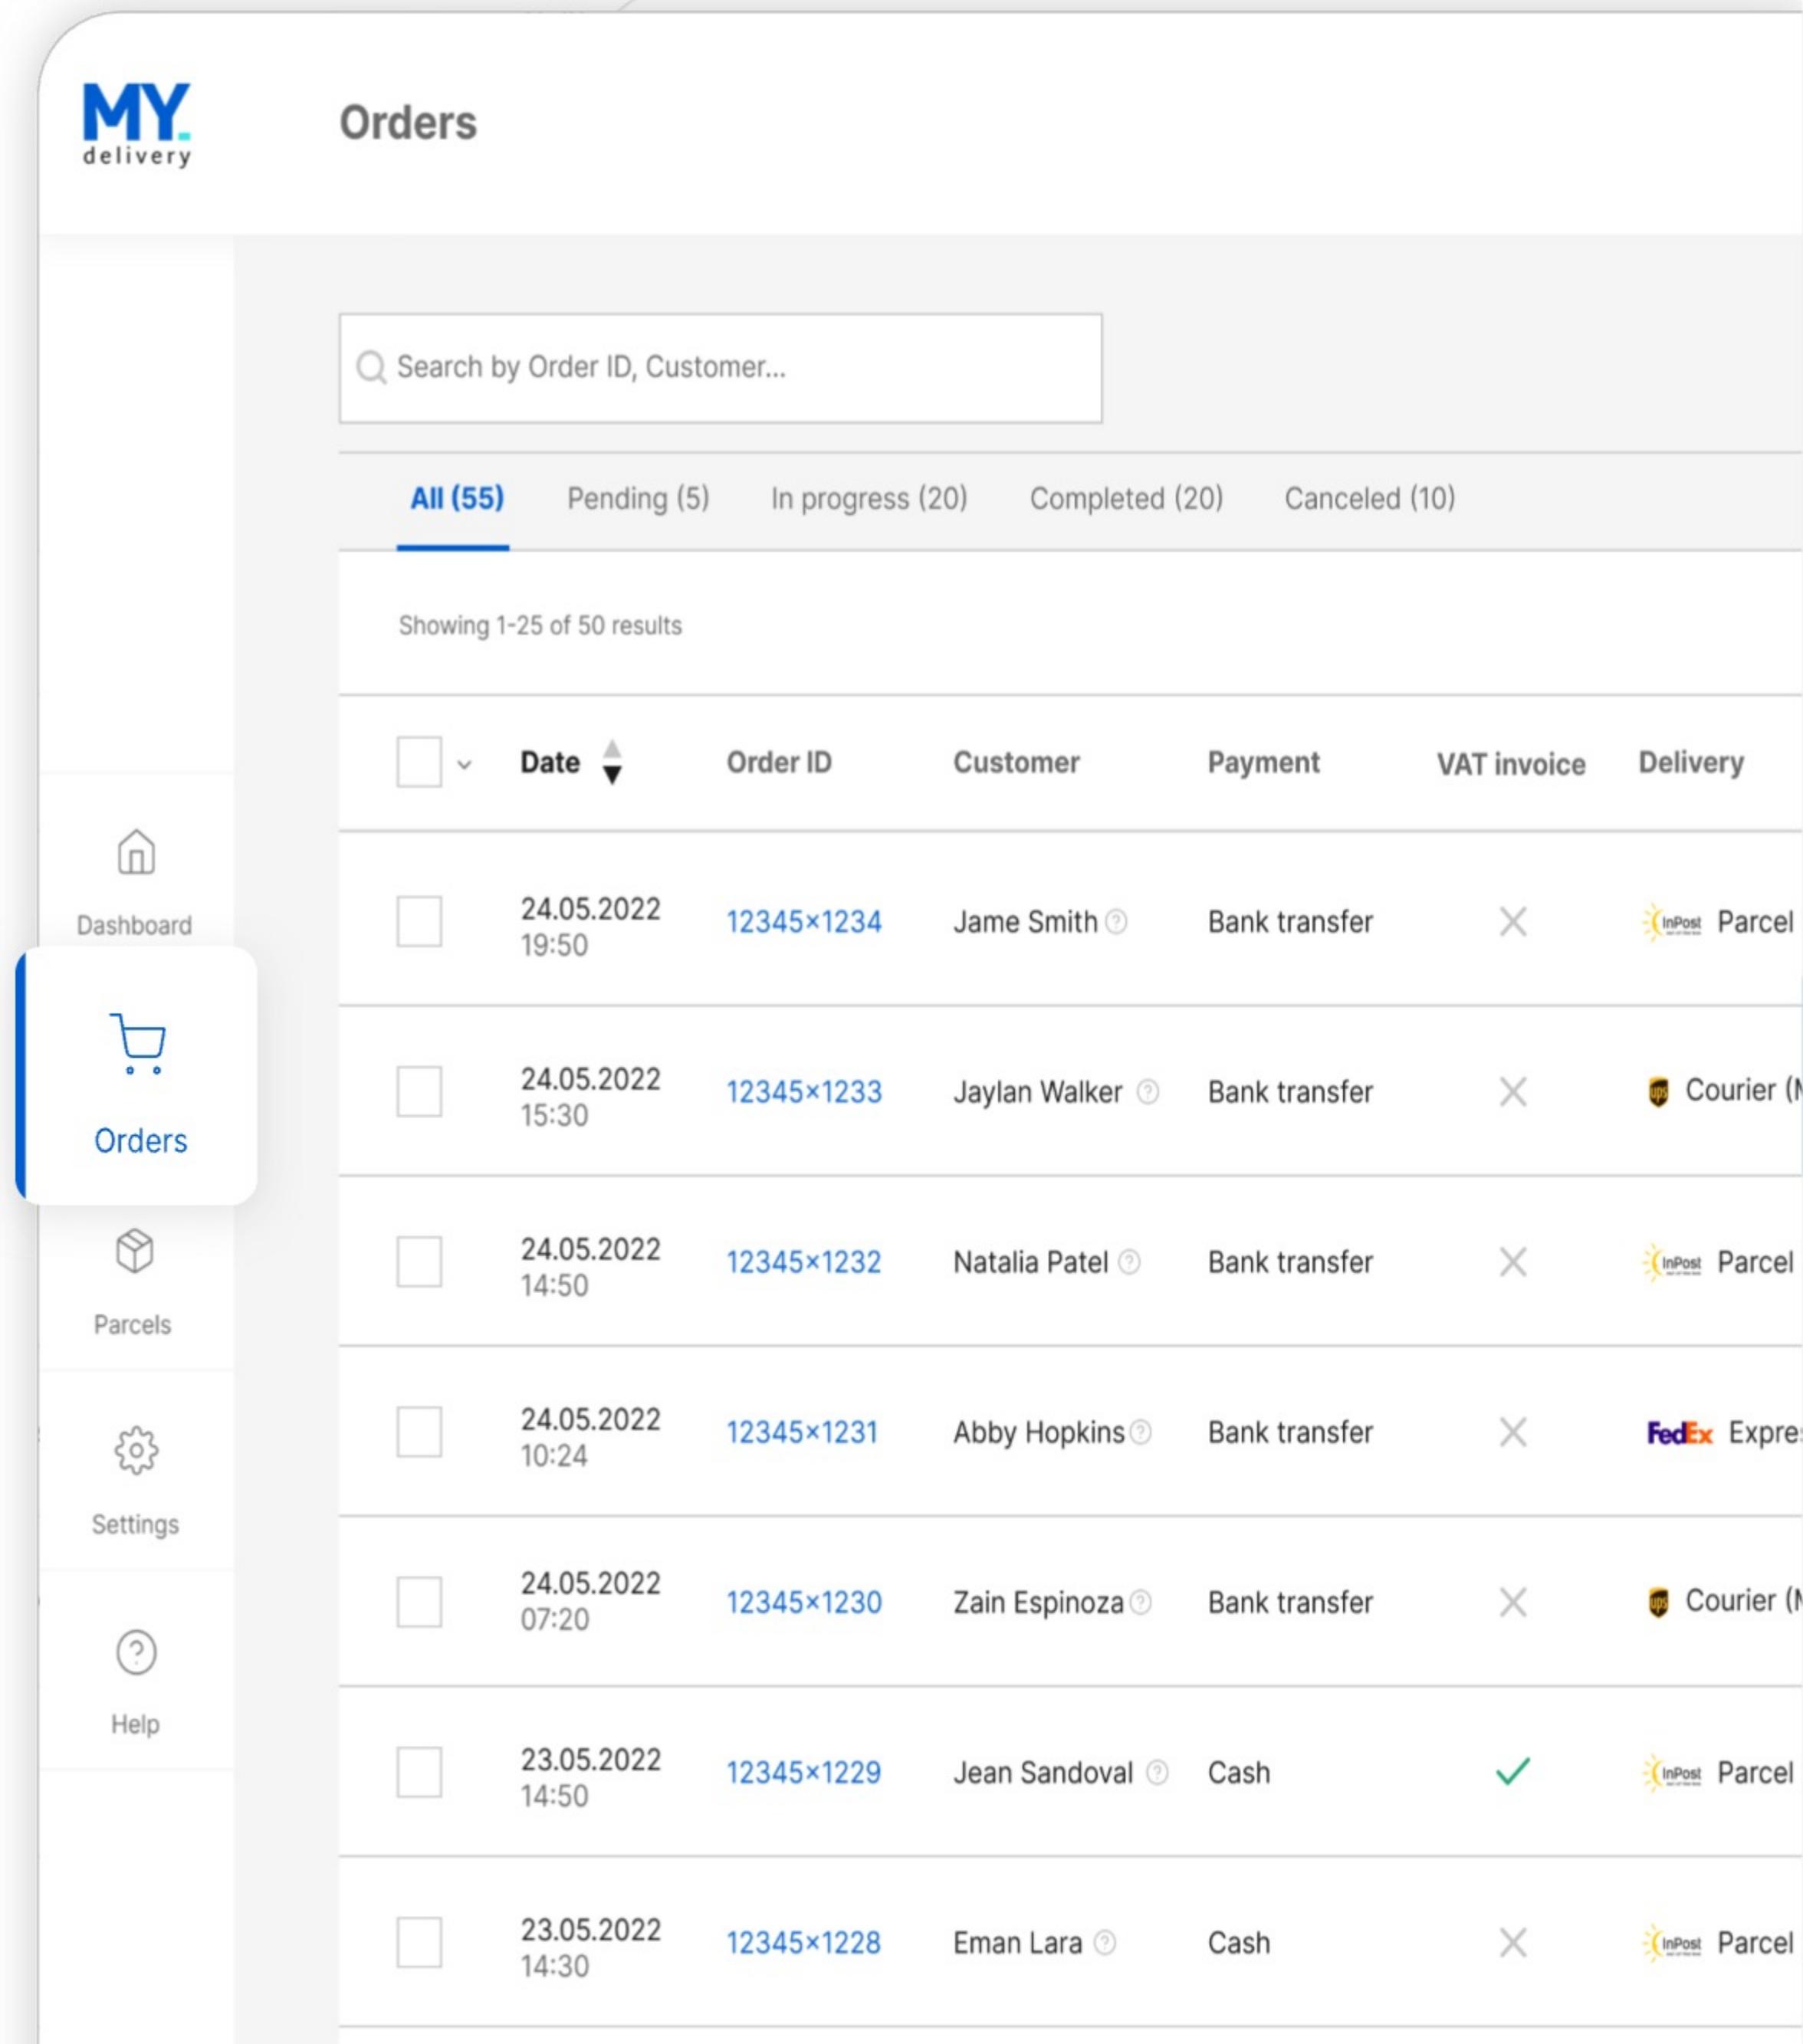

Possible automatizations of repeated actions.

Dashboards often has big limitations, regarding possible actions and usability.

Dashboard with simple navigation and notifications.  
Several unique tabs, with possibility to create new ones.

Sellers often use one tool to integrate different ecommerce shop in one place

Intuitive and user-oriented dashboard.  
Possibility to integrate with most commonly used tools (e.g. Baselinker, Presta Shop, Shopify).

The screenshot shows the MY.delivery software interface. At the top, there's a header with the logo 'MY.delivery' and a search bar labeled 'Search by Order ID, Customer...'. Below the header, a navigation bar includes tabs for 'All (55)', 'Pending (5)', 'In progress (20)', 'Completed (20)', and 'Canceled (10)'. The 'All (55)' tab is currently selected. The main area displays a table of 50 results, with columns for 'Order ID', 'Customer', 'Payment', 'VAT invoice', and 'Delivery'. Each row contains a checkbox, a date/time stamp, and a unique order identifier. To the right of the table, there are icons for InPost Parcel, FedEx Express, and Courier (N). On the left side of the interface, there's a vertical sidebar with tabs for 'Dashboard', 'Orders' (which is currently active), 'Parcels', 'Settings', and 'Help'. The 'Orders' tab has a blue outline around it.

# User persona

Emilia is a Merchandiser (35 years old), living in Poznan and works full-time from home. She is strong and independent woman. She owns an online shop "Drobiazgi u Emiliki" and sells on two marketplace platforms.

She struggles with zero free time, because of spending almost 10 hours every day managing her shop. Creating parcels is difficult for her and time-consuming.

## Needs & Goals

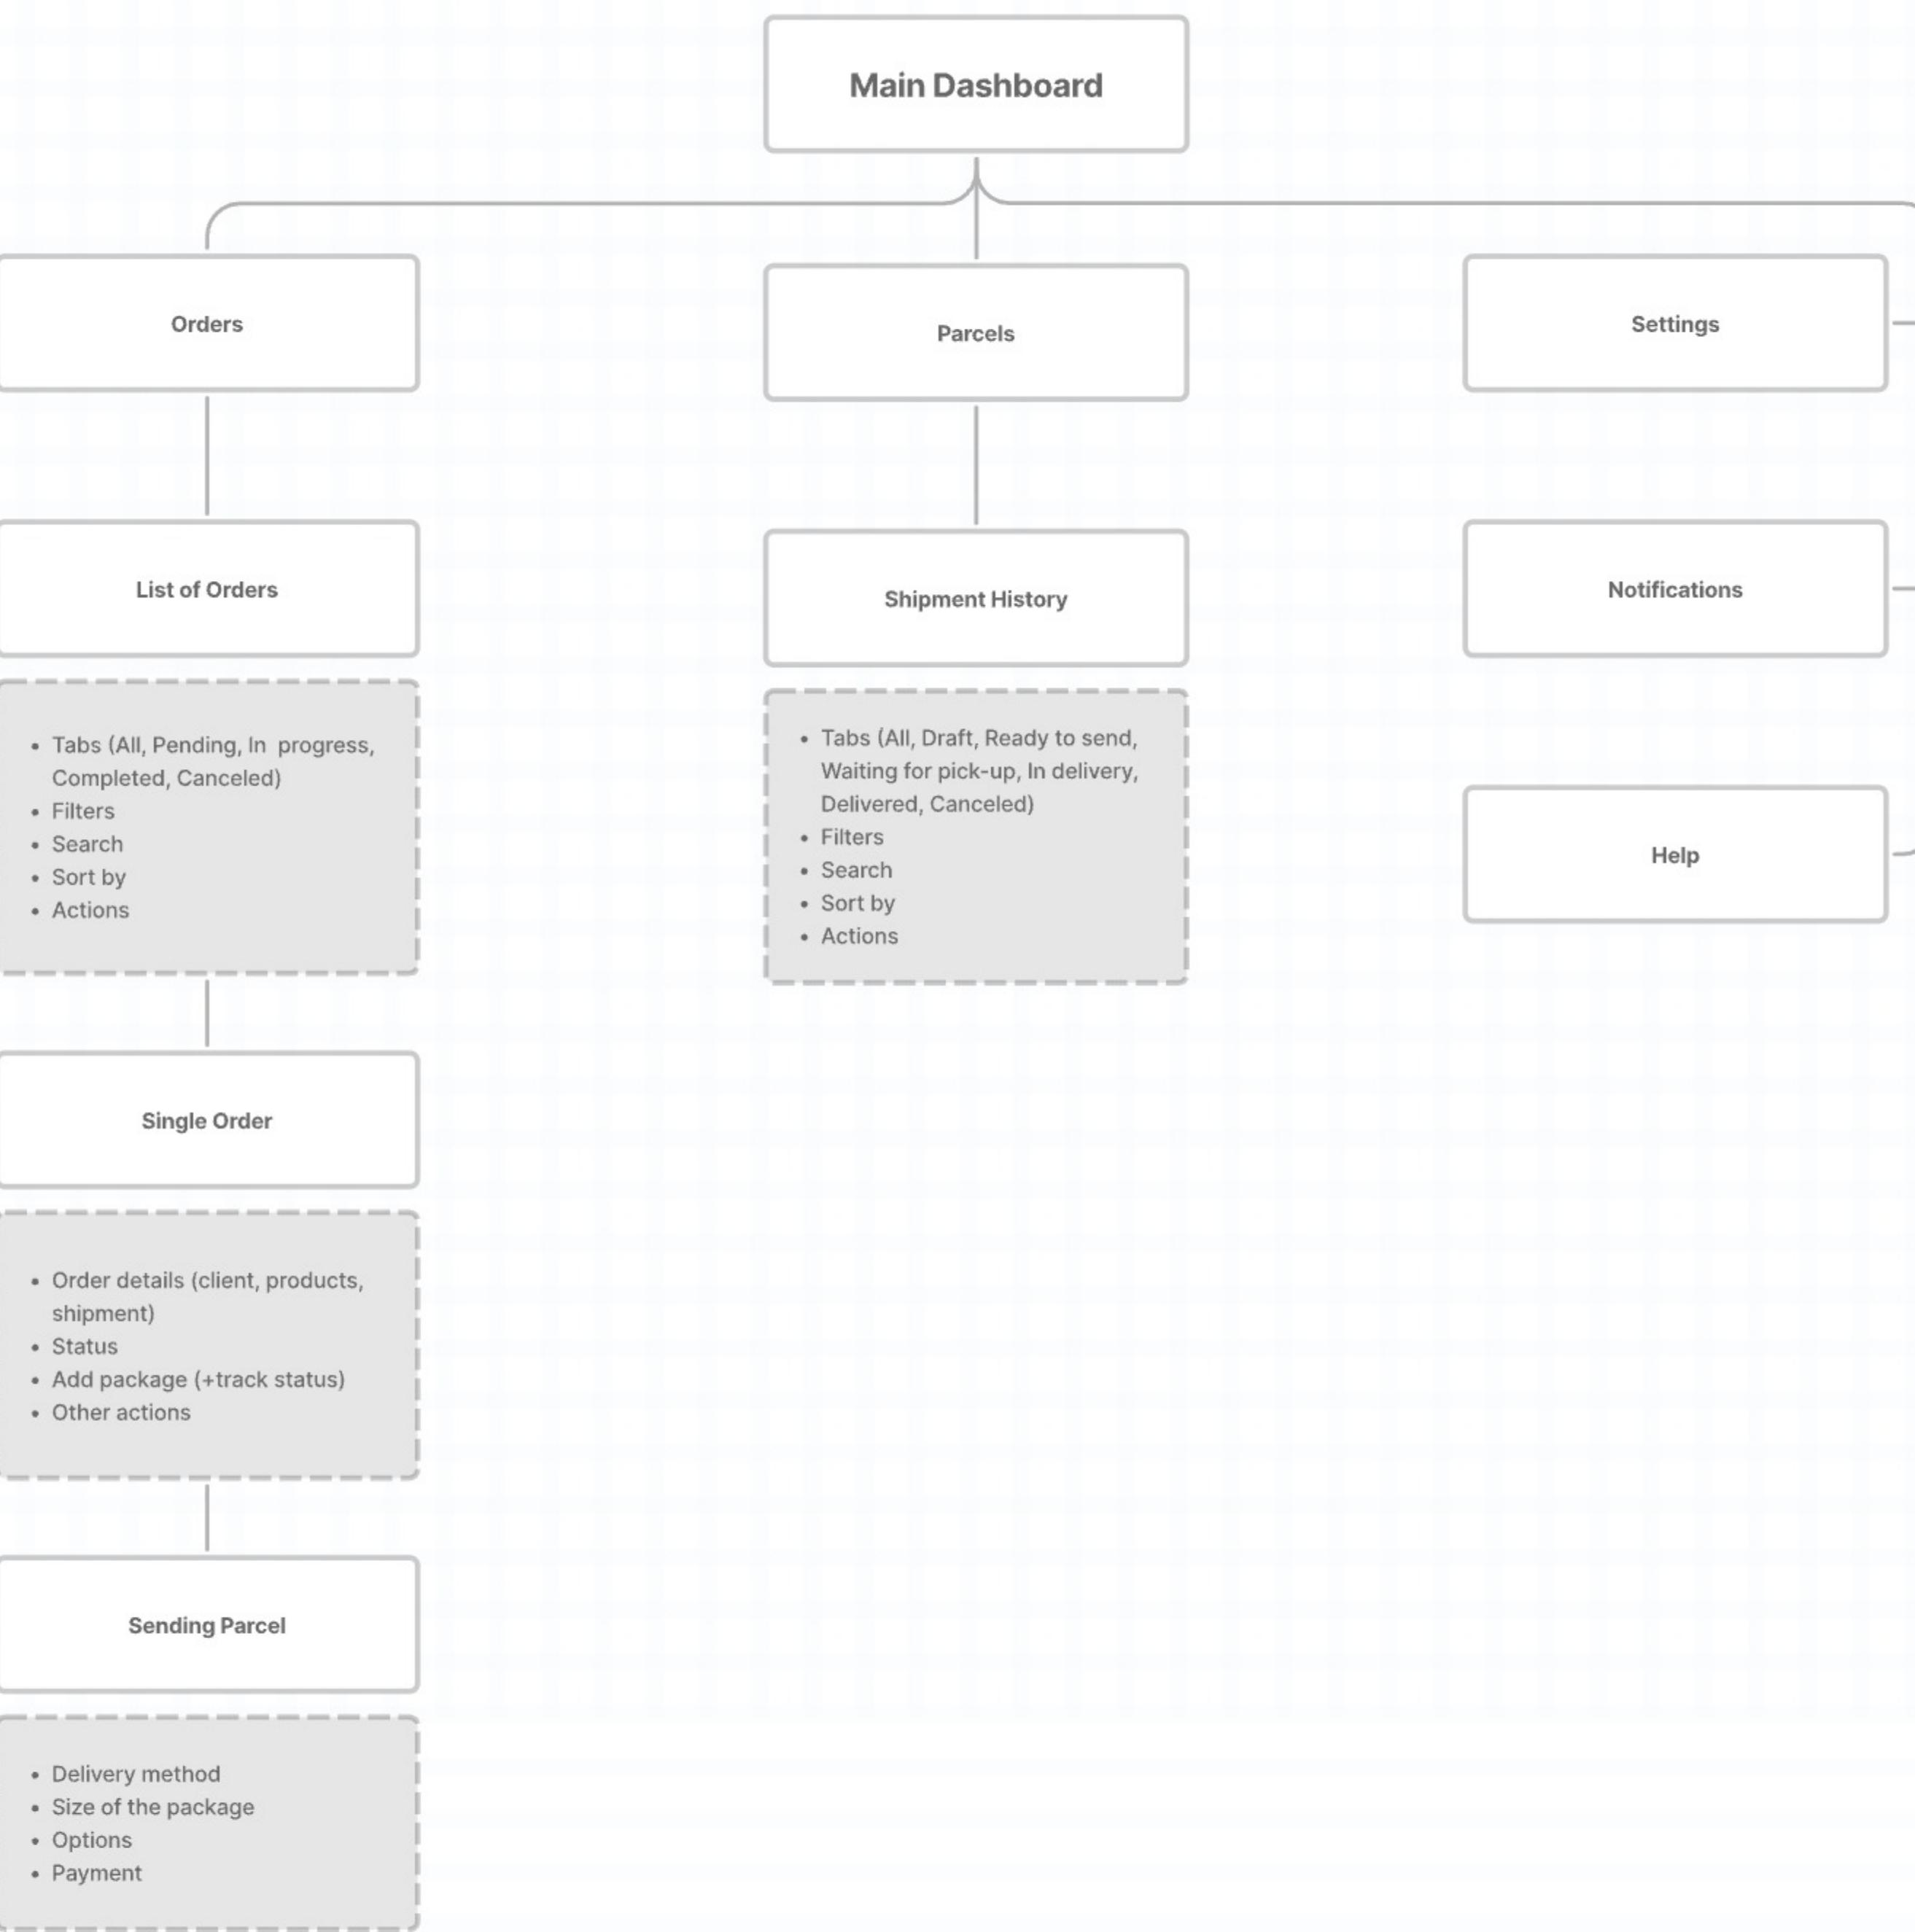

- Need to expand shop recognition
- Wanna take part in a big ecommerce community
- A dashboard that improve orders and delivery management
- Sells more
- Spend more time on self-development
- Have free time for her friends

## Pain Points

- Do not have free money to invest in shop
- Managing orders is difficult for her
- She is not a tech person

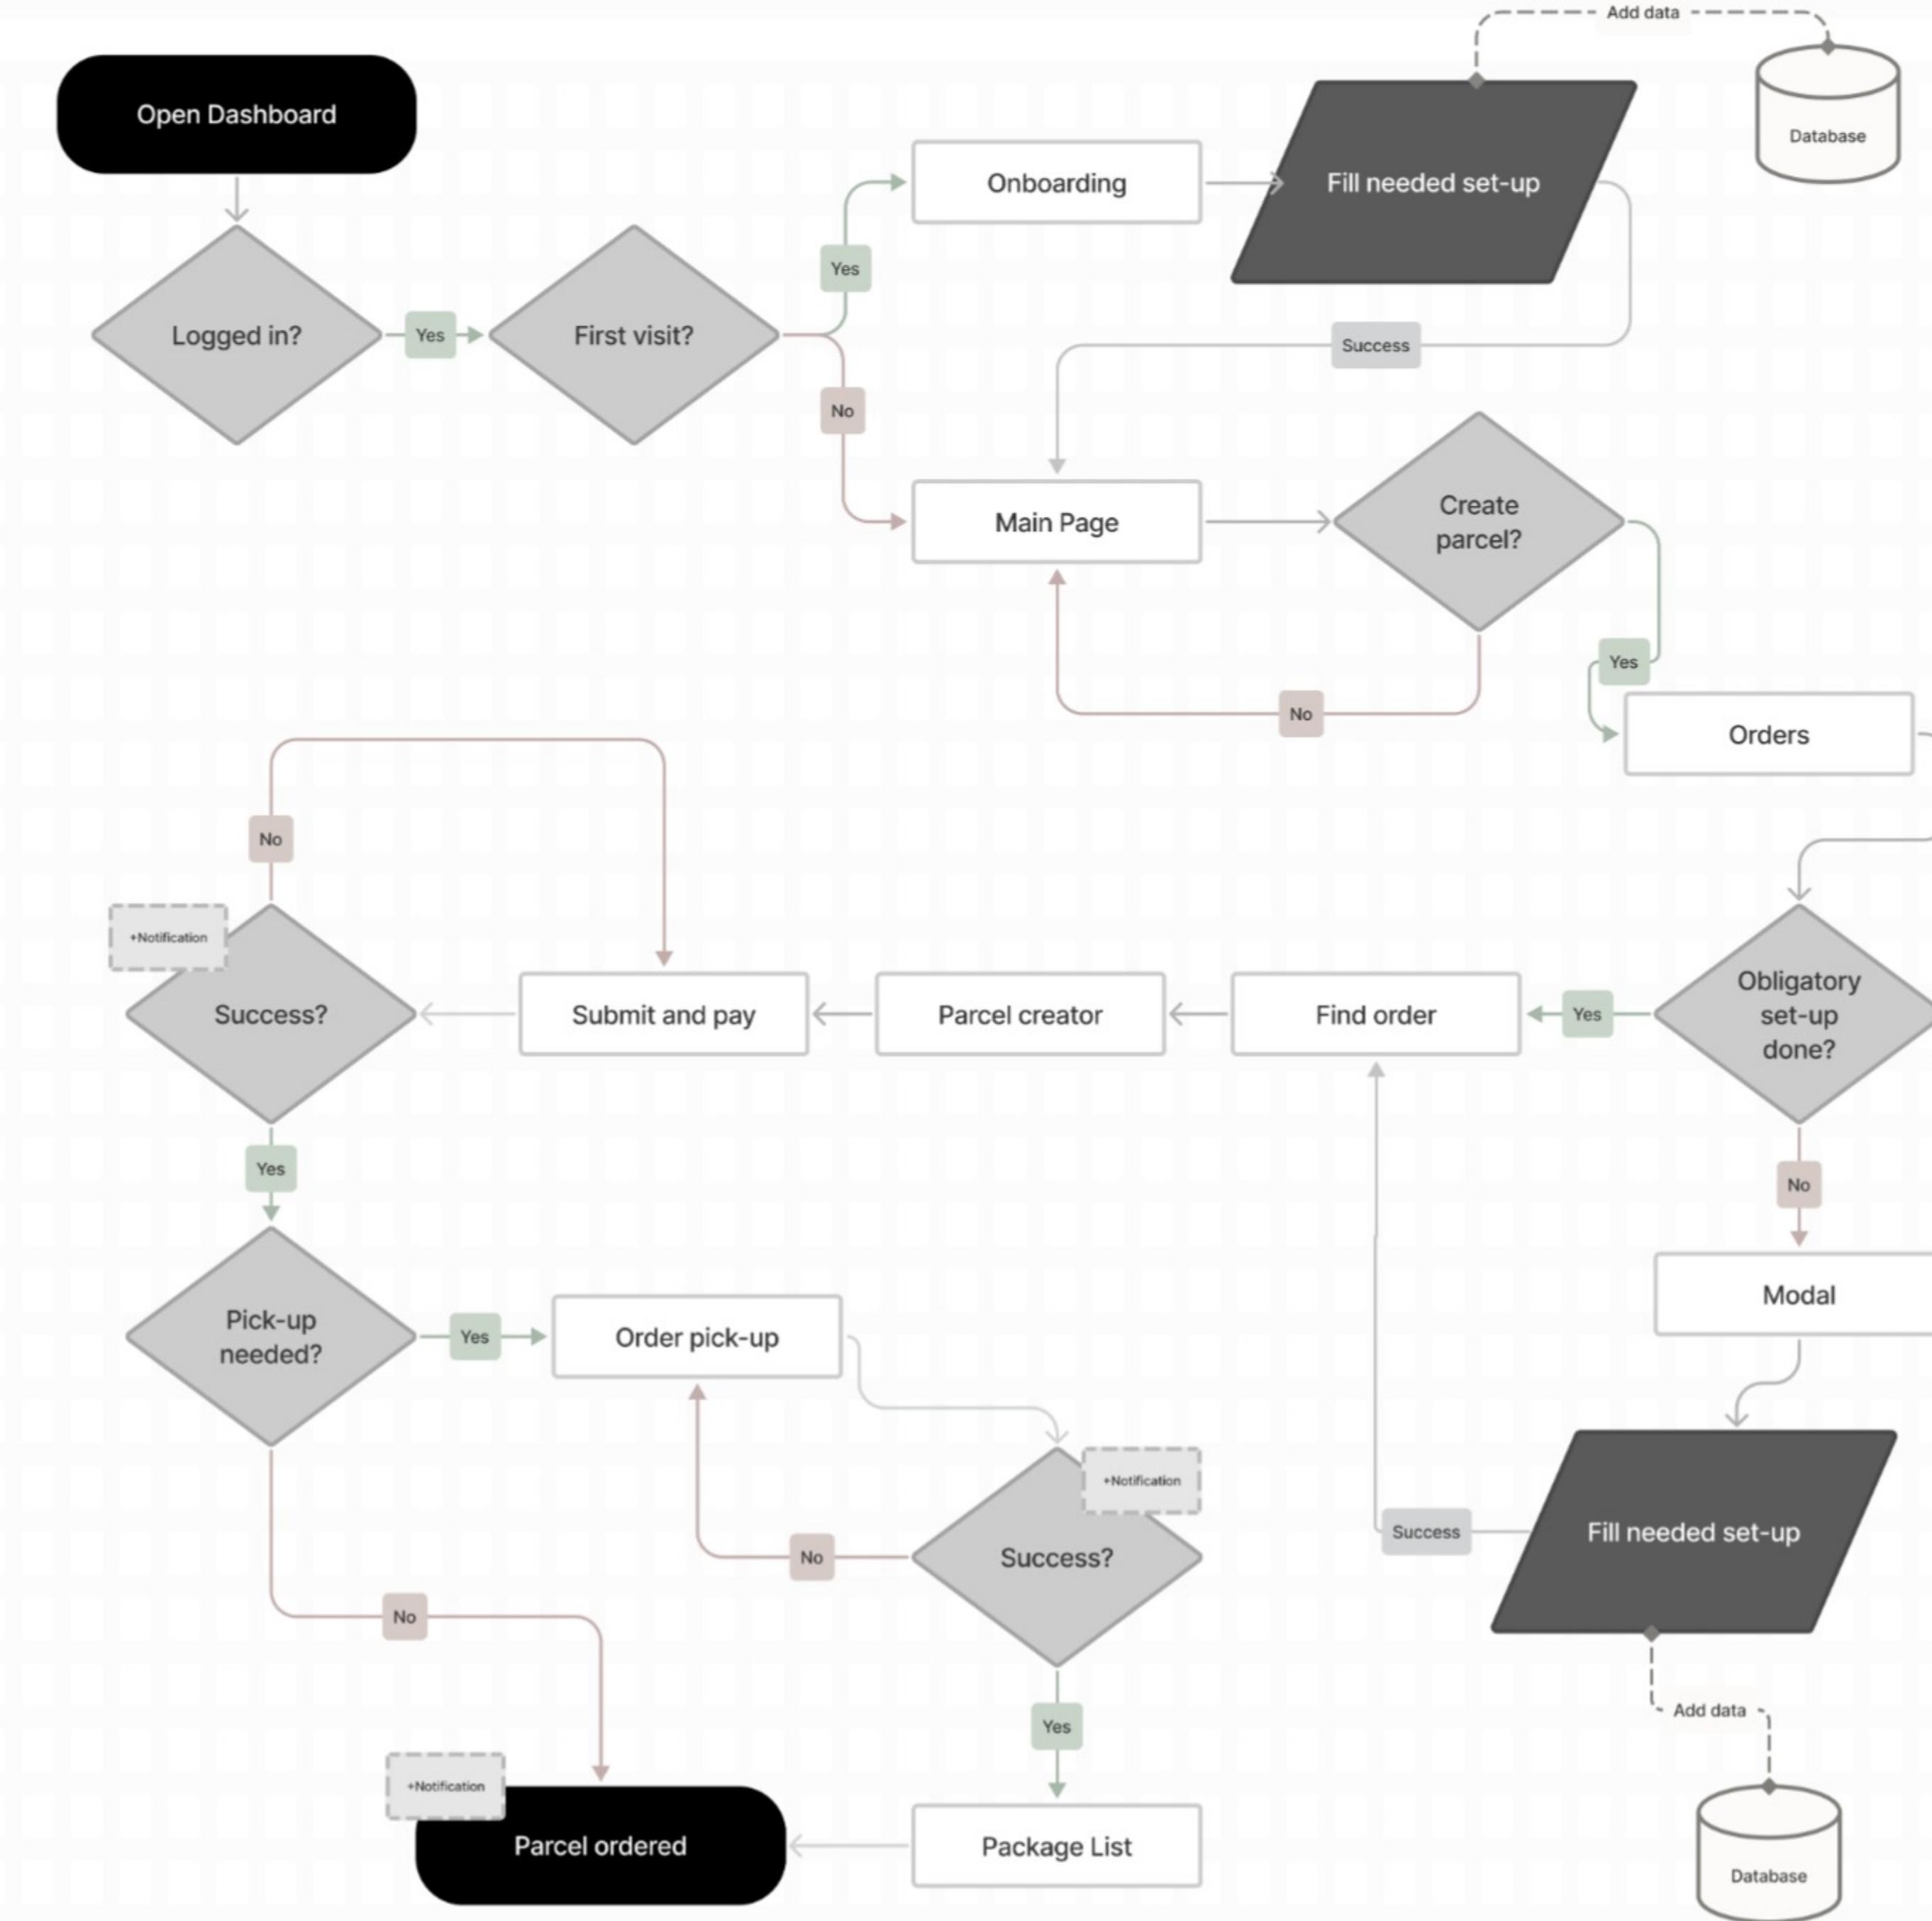

I want  
to improve  
my  
daily  
work!

# Information Architecture

# User Flow

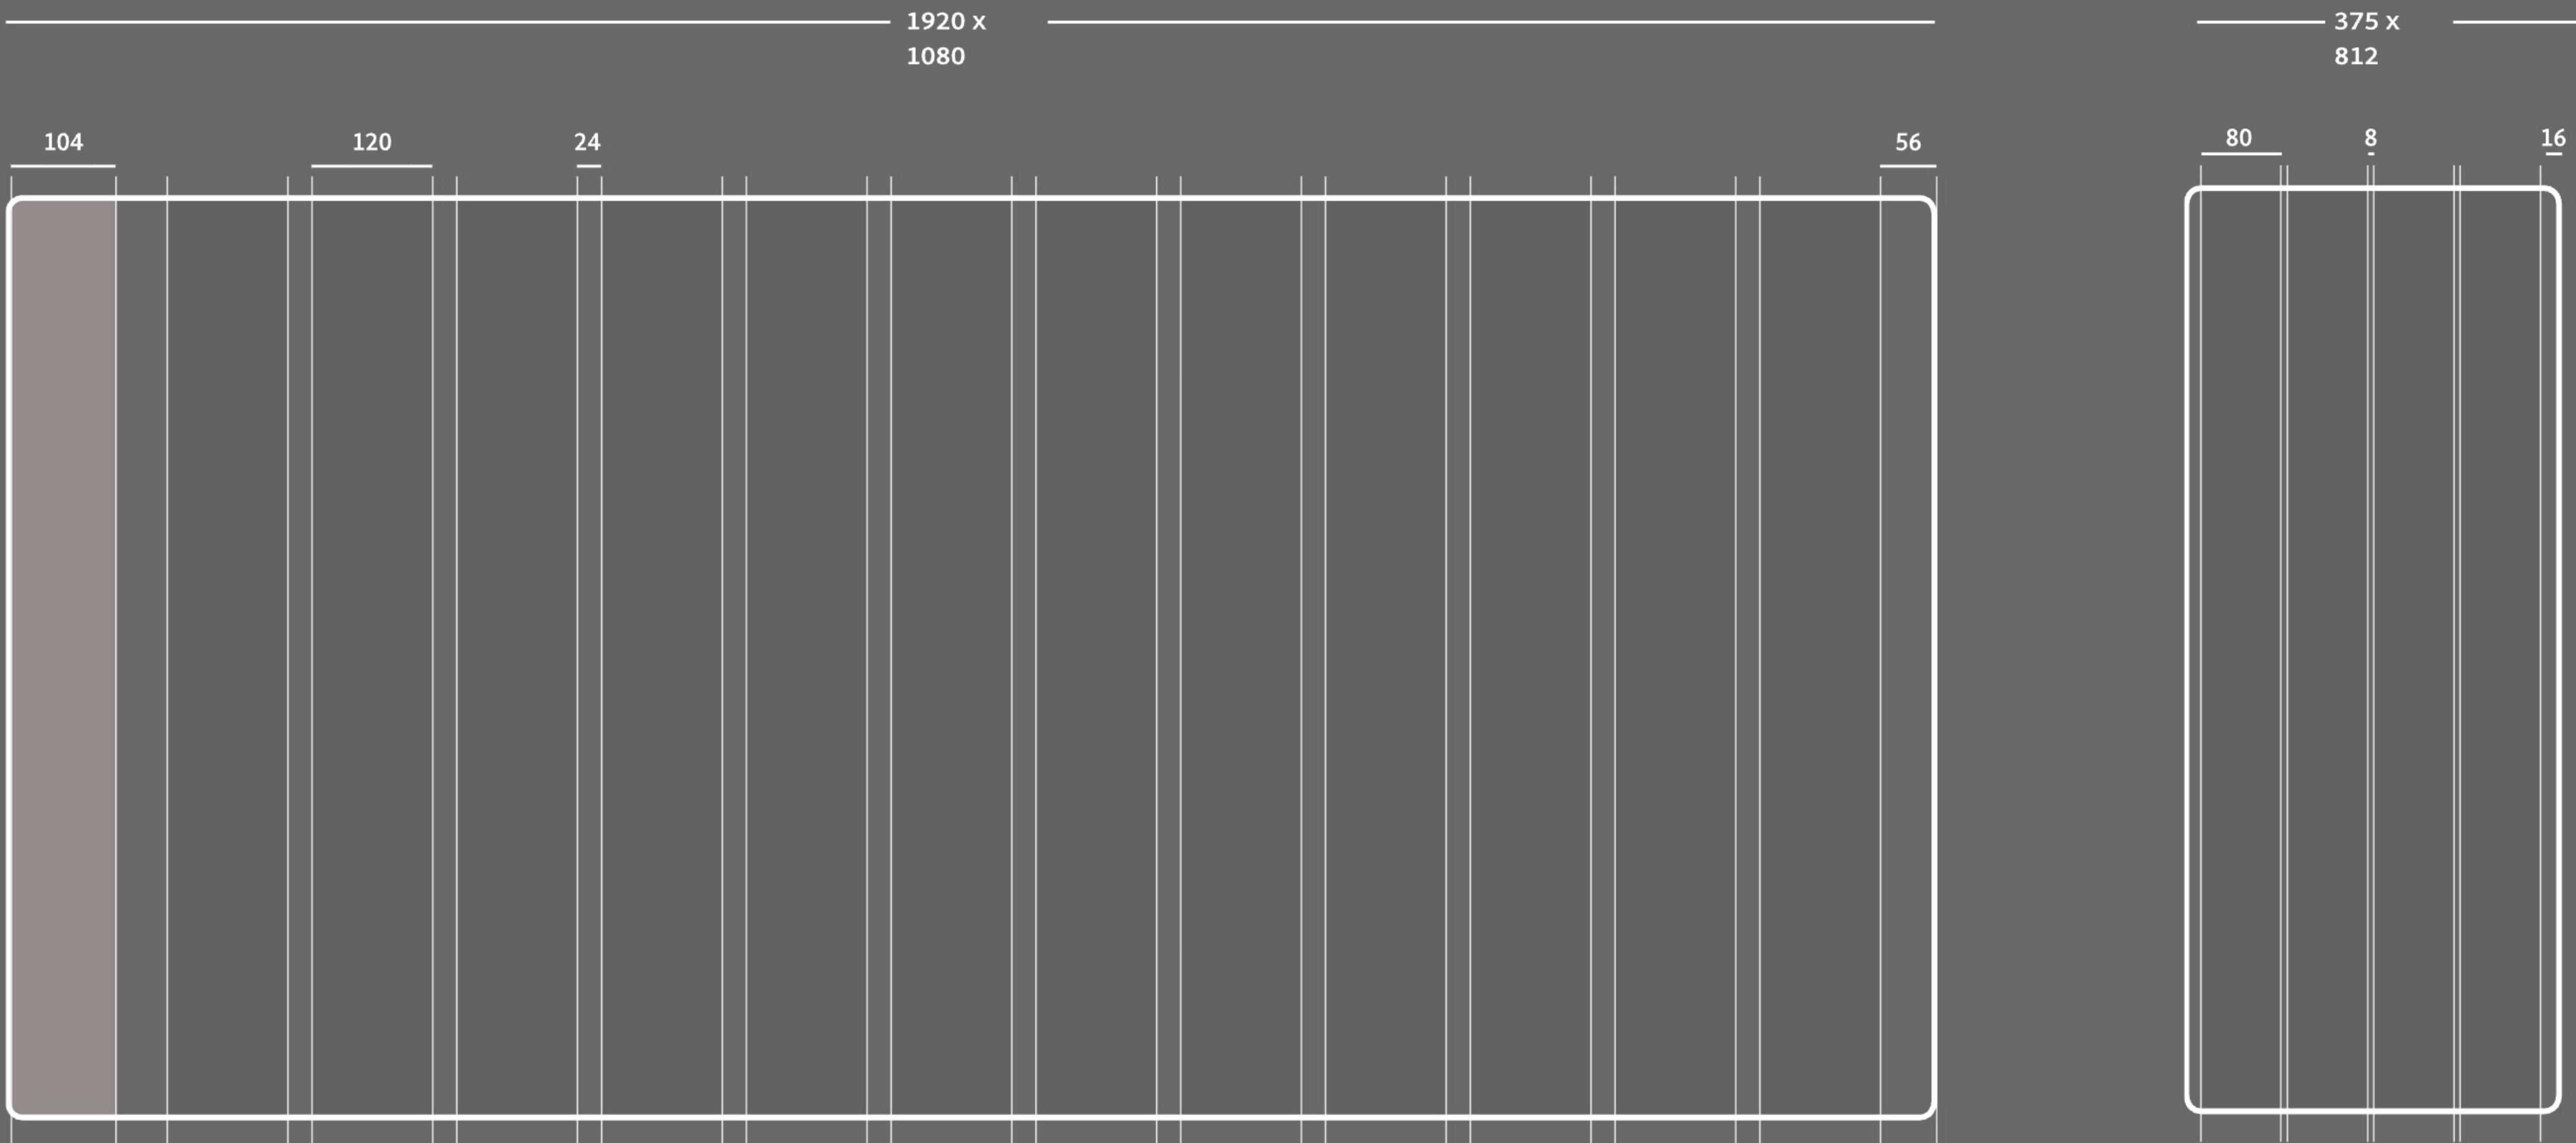

I've created several user flows, specific for each process. Here you can find a simplified example.

# Style concept

I've created 2 responsive systems, based on an 8 px grid:  
one for desktop with 12 columns and a fixed sidebar and  
another one for mobile with 4 columns.

# SYSTEM

# Dashboard template

The dashboard is made of various sections that are folded like blocks, filling the whole page. Every tab looks similar to each

## DESIGN SYSTEM

# Typography

It is a variable font family carefully crafted and designed for computer screens.  
It features a tall x-height to aid in readability of mixed-case and lower-case text.  
It is great for long-term application use.

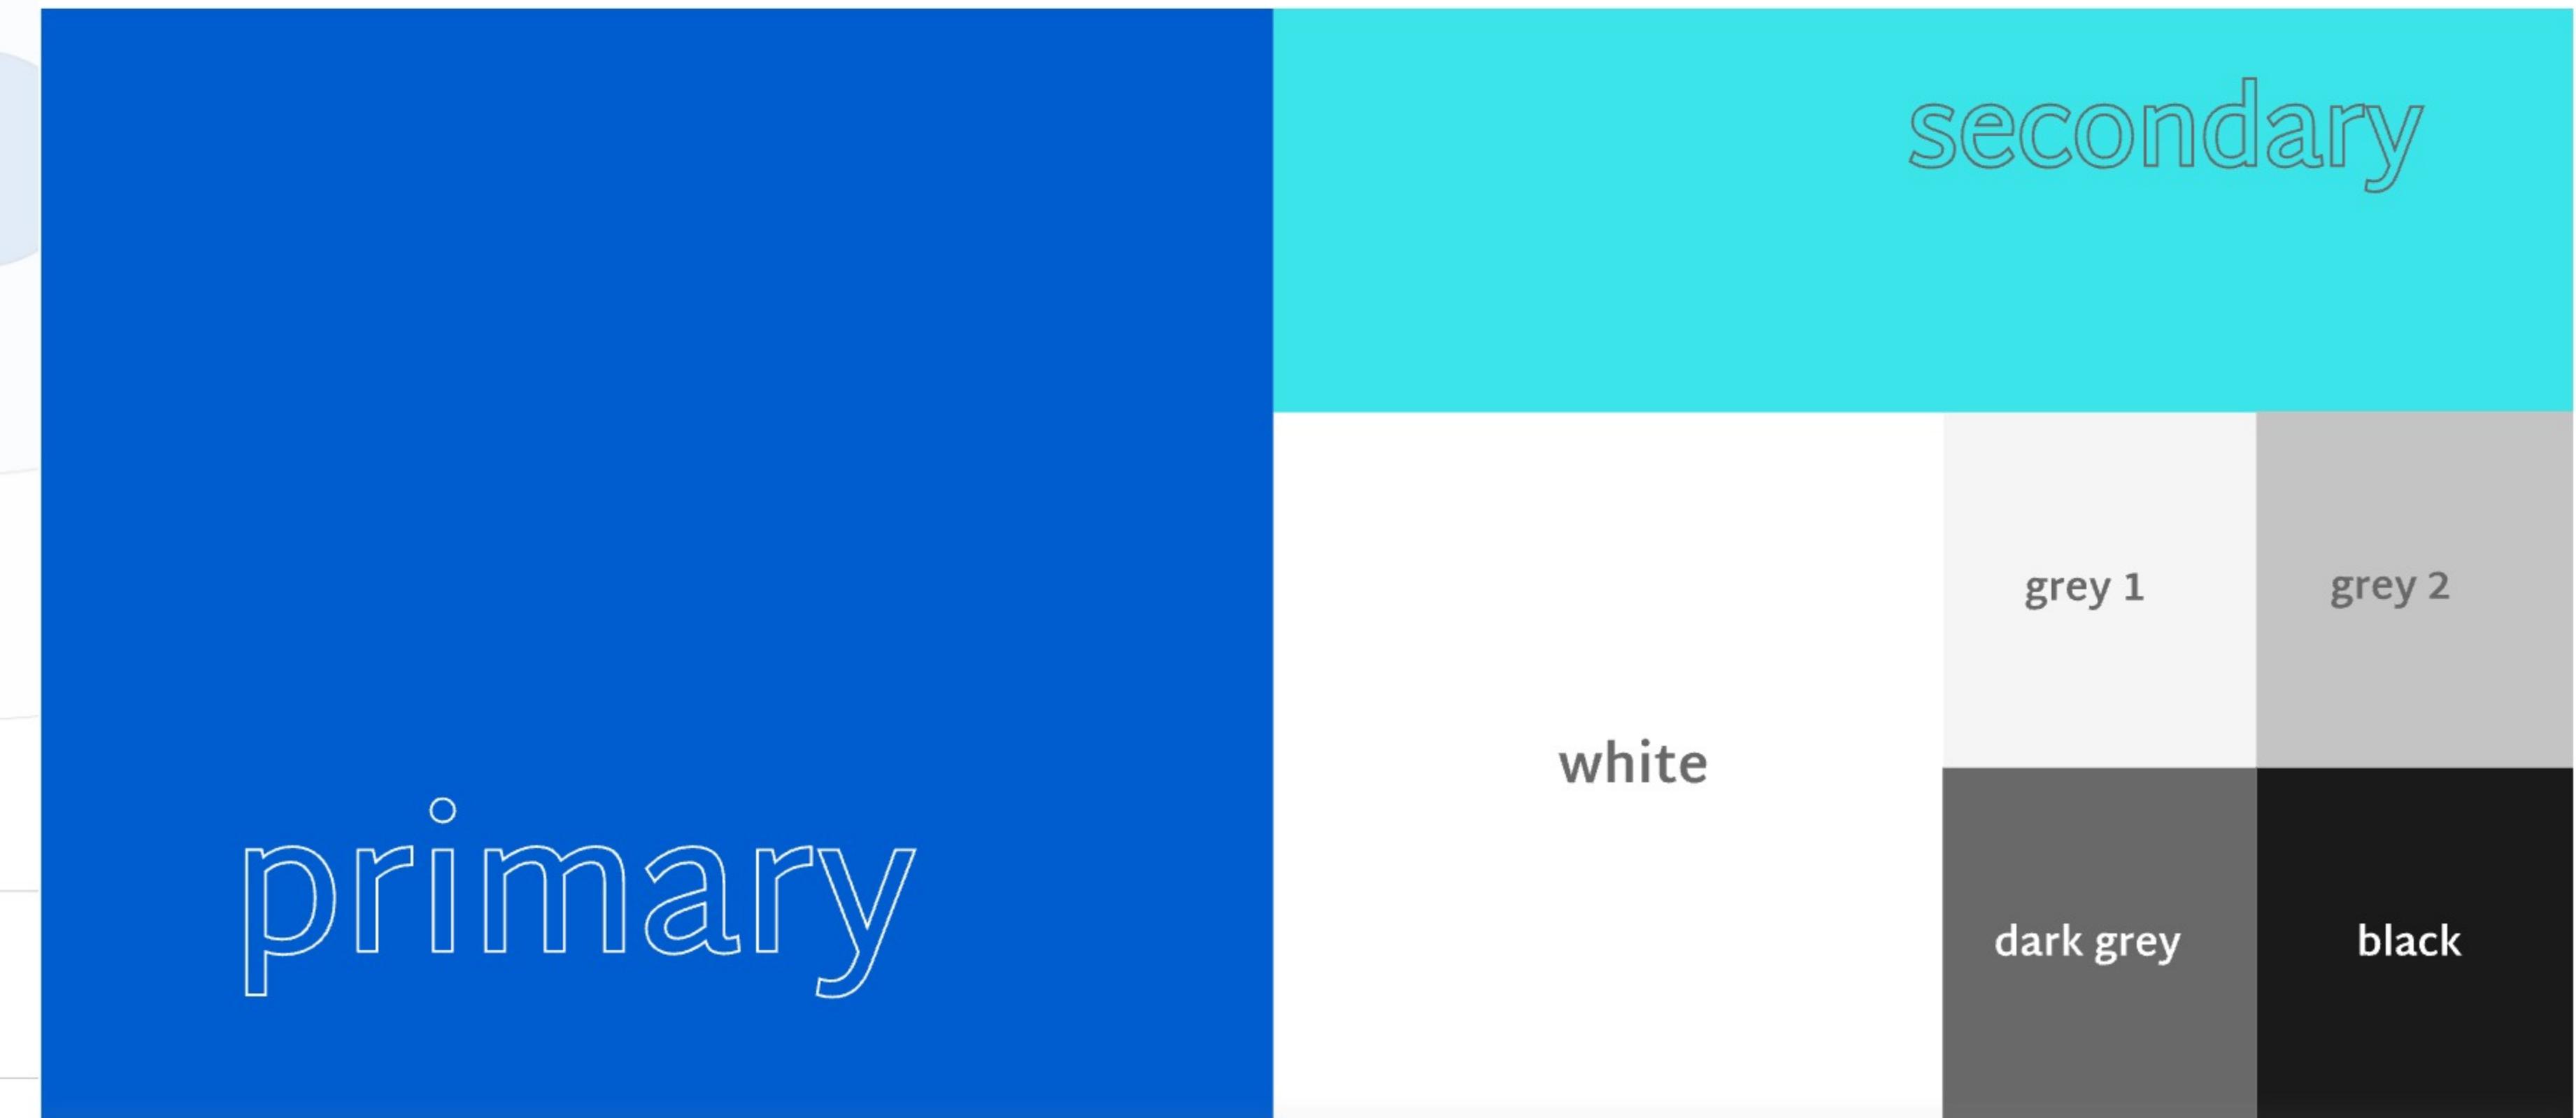

# Inter

Style name	Font details	Example
Heading 1	H1/32/Bold	<b>Almost before we knew it, we had left the ground.</b>
Heading 2	H2/28/Semi bold	<b>Almost before we knew it, we had left the ground.</b>
Heading 3	H3/22/Bold	<b>Almost before we knew it, we had left the ground.</b>
Body 1	B1/18/Regular	Almost before we knew it, we had left the ground.
Body 2	B2/16/Regular	Almost before we knew it, we had left the ground.
Body 3	B3/14/Regular	Almost before we knew it, we had left the ground.
Body 4	B4/12/Regular	Almost before we knew it, we had left the ground.
Button / Notifications	Button/16/Bold	<b>Almost before we knew it, we had left the ground.</b>

## DESIGN SYSTEM

# Colour scheme

The basic palette for dashboard. It doesn't contain all tints and opacities used in the project.

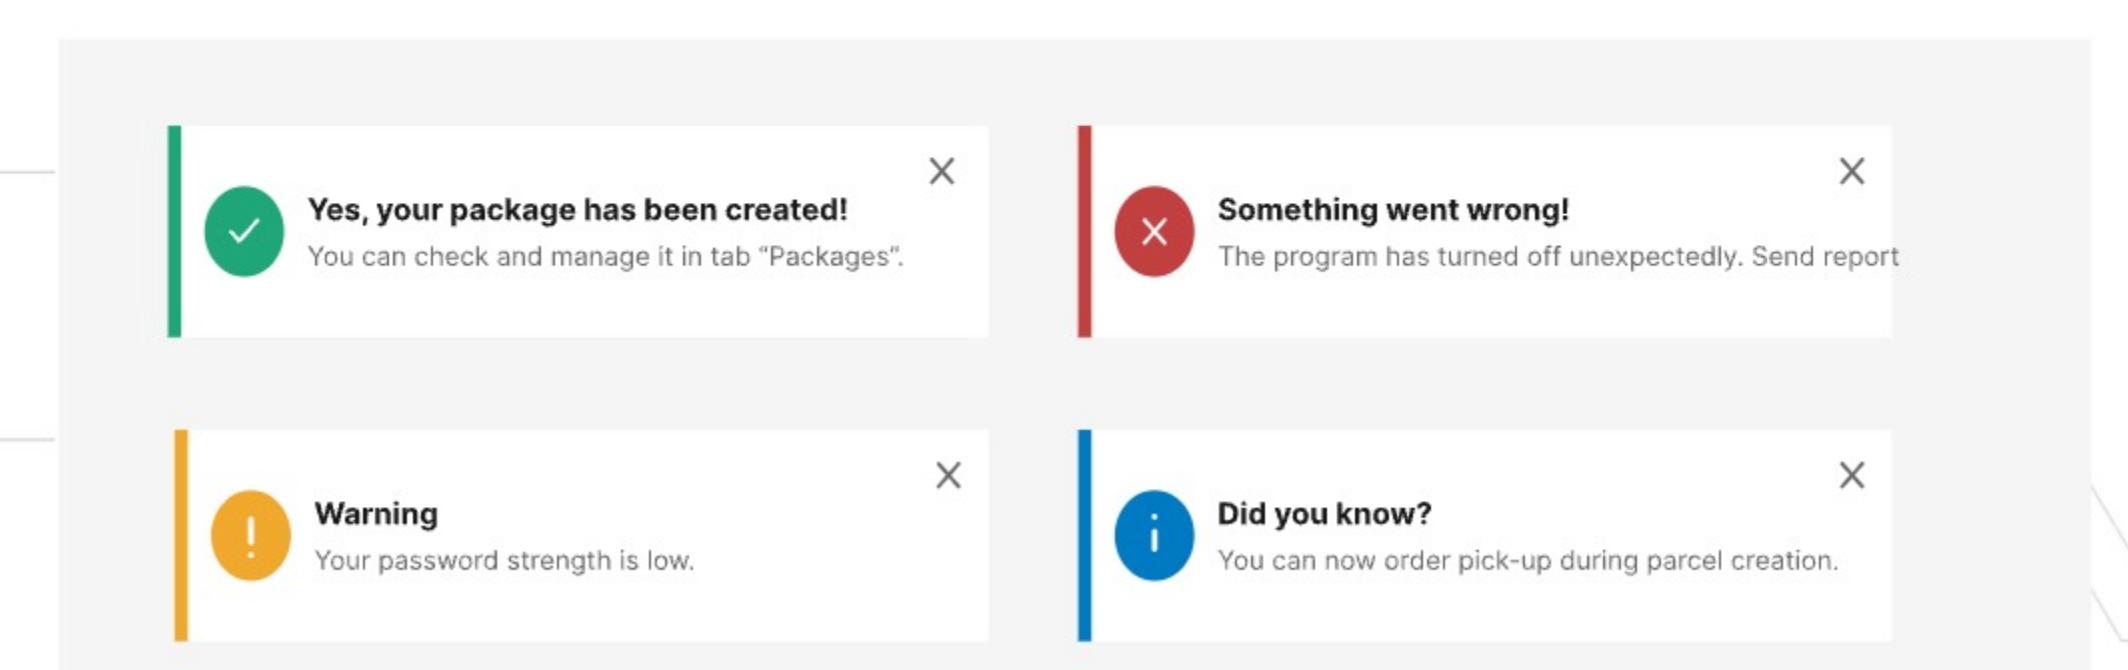

## DESIGN SYSTEM

# Notification center

The dashboard has a notification center, that is connected with automotive mailing system.

As for now, there are four types of notifications, however, it can be more in the future.

## useful filters

The screenshot shows the MY delivery Orders page. At the top, there is a search bar labeled "Search by Order ID, Customer..." and several filter dropdowns: "Payment status", "Order status", "Date From", "Date To", "Payment type", "VAT invoice", "Delivery method", and "Parcel size". Below the filters is a button "Apply filters". The main area displays a table of orders with columns: Date, Order ID, Customer, Payment, VAT invoice, Delivery, Price, Delivery cost, Total, Payment status, Order status, and Actions. A modal window is open, showing a filtered list of 2 results for "Delivery method: InPost Parcel Locker" and "Parcel size: S". The modal has its own search bar, filter section, and table.

## massive actions

The screenshot shows the MY delivery Orders page with a large number of selected items (55). The table includes columns: Date, Order ID, Customer, Payment, VAT invoice, Delivery, Price, Delivery cost, Total, Payment status, Order status, and Actions. A modal window at the bottom is titled "Selected items: 3" and contains buttons for "Create parcel", "Show parcel list", "Download CSV", "Cancel", and "Delete". The modal also lists the selected items: 12345x1234 (Zayne Fulton, Cash, FedEx Express (L), 2 658,52 zł, 20,00 zł, 2 678,52 zł) and 12345x1226 (Zayne Fulton, Cash, FedEx Express (L), 2 658,52 zł, 20,00 zł, 2 678,52 zł).
